

# KITCHENS

We bring you the chicest, sleekest islands on which to slice and dice this season

Clad in Silver Roots marble slabs, with 'Groove' walnut doors in a new Moka finish, this island appears to float on a narrow stone base but can still integrate a large appliance such as a dishwasher. Handle-free doors conceal an LED light bar that emphasises the interplay of textures and materials, while a versatile 'Glass' door component can be used in various applications, such as bases, wall units and columns.
